# SICOT Knee Arthroscopy Cadaver Course

Friday 25 & Saturday 26 September 2026

*Hosted at ArthroLab™ Singapore*

The SICOT Knee Sports Cadaveric Course is a two-day advanced course on knee ligament injury management, focusing on bone and soft tissue reconstruction. Covering ACL, PCL, MPFL, MCL, multiligament injuries, and joint preservation, the programme integrates anatomical, biomechanical, and clinical insights.

Participants will benefit from hands-on cadaveric dissection, surgical demonstrations, and small-group training (2 per station). Emphasis is placed on evidence-based techniques, including graft selection and fixation. Led by an expert international faculty, the course aims to enhance surgical practice and improve patient outcomes.
